

NG return to Thruxton for 2026

Lorne Mitchener (Sales Manager Thruxton Circuit) and Steve Bostock (NG Road Racing Club) meet to confirm plans for a Motor Cycle Action Week during August 2026. Along with activities throughout the week, a test day will take place on Thursday 20th August and a full NG Road Racing Club Championship event will close the week on Saturday / Sunday 22nd 23rd August.

Steve commented, It is absolutely fantastic to re establish the relationship with BARC Thruxton. NG Road Racing last held a race event here in 2017, only revisiting in 2021 to Christen the then, newly built BARC Hospitality Centre with our annual presentation evening.

Despite the absence, our relationship with the team here at Thruxton has remained very strong and to be able to bring NG back here is really exciting for our membership, sponsors and the wider racing community. We have all witnessed how thrilling the Bennetts British Superbike races are around here, now we are super proud to be able to provide a platform for the more recreational competitors to race at this iconic venue. Our program is packed full of classes for virtually all modern machines, plus we feature a mecca of Grand Prix machinery including the 250GP ACU National Championship along with 125 and 350GP National Championships as well. We shall also feature the awesome Lansdowne Classic National Championship, bringing the sights and sounds of Manx Norton's and Matchless G50's etc. back to Thruxton. NG's 2026 season is set up to be an absolute cracker, with 8 championship rounds at 8 different venues.
